C BAÑO BOMBAS

With our new and improved bath bombs, a badly-needed "spa day" is a blast! Sustainably-harvested pinecones are infused with nitrocellulosic compounds in our exclusive process, then kissed with just an extra pinch of banana scent for an aromatherapeutic delight. Build your spa in three easy steps:

1. Light your Baño Bomba fuse using any available fire-making technology
2. Throw your Baño Bomba into a clearing, preferably unpopulated, with a minimum of radioactive structures; explosive power will create the perfect-size hole for your new spa!
3. Wait for the resulting blast hole to fill with precipitation, then sit, soak, and enjoy!

Not recommended for children under 6 weeks.
